Date: 24.01.2022

Venue: Sitaramapuram Village

PLANTATION

Description of the event:

Home is the place where people live and garden is the place where these people could find peace. Then why not bring this garden home or build a pretty little garden in your balcony. Greens around you inherit positivity within you.

Our team has organized an event named plantation in order to teach the techniques to plant trees and develop a small garden in your household. As a part of this event our team provided an interaction session with a professional nutritionist and taught few kitchen gardening techniques to the locals of sitaramapuram villagers.

Benefits:

1. Plants rise oxygen levels in the environment and develops the health quality of other lives around them.
2. By teaching gardening we encouraged to grow plants in and around their household
3. At least one plant in every household could ensure the health quality of the family.

Number of Students Participated: 60
