Awareness Programmes & Rallies on Usage of Plastic & Plantation Drives

Date of the Event	: 15-06-2022 to 22-06-2022
Venue	: Poratnagar, Pondugala, Murusumilli Tanda, Eaduru beedam, Anantharam
Total No. of Participants	: 156
No. of Students	: 150
No. of Faculty	: 6

Plastic pollution is today **one of the most serious environmental problems affecting the oceans**. Once in the natural environment, plastic can take up to 500 years to disappear and impacts wildlife on a daily basis. Drifting between two bodies of water it can strangle or smother any number of animal species.

The main motto of this program is to bring awareness about usage of plastic to villagers. Rallies were organized in which KLEF students and residents of respective villages participated. KLEF students went to door to door to all the houses in the villages and explained about the disadvantages of using plastic. They also advised villages in what way plastic usage can be avoided. Plantation Drives were organized in all villages to protect our environment.

. A strategy used to minimize the use of plastic bags is to replace plastic bags with reusable bags/cloth bags. Reusable bags are well designed at a minimal cost for longer use of durability, convenience, and for environmental protection.

Benefits of Reusable Bags

- Protect the earth by minimizing toxic pollution and contamination
- Increase the quality of our ecosystem
- Made from ecofriendly materials so it is less harmful to the environment

KLEF students with the help of villagers picked all the plastic waste in the villages and also explained them on how to dispose plastic in a safe way
