Date: 08.01.2022

Venue: Ganapavaram

AWARENESS PROGRAM

Description of the event:

Prevention is better than cure. In order to prevent something it is necessary to be aware of those concerns. The subsequent step of analyzing a problem is to find a solution for the problem. This is applicable even in the case of health and hygiene issues. The very important part to be played for solving hygiene related problems is to beware of the consequences of untidiness.

As a part of our efforts to build smart villages our volunteers organized an awareness program. This awareness program is based on analysis made during the pilot studies conducted on 8th of January. The villagers were educated with the problems and also the means to prevent those concerns. They were provided with practical knowledge, professional and expert guidance.

Benefits:

1. Awareness regarding the health and hygiene.
2. Chance to interact with professionals and get an expert guidance.

Number of Students Participated : 70
