Date: 19.07.2022

Place: Seetharampuram thanda

Awareness Programmes on (Organic Waste Management, Sewage Handling Practices, Use of Organic Fertilizers, Developing Sanitation)

Evolution is the primary function of mankind, apart from survival. Only through constant and concrete change can humanity persist in a world that alters its atmosphere at every turn. In the relentless pursuit of this enhancement, we devote an abundance of time and energy to bring about a revolution in the way of life we are accustomed to. Striving for improvement in the standard of living leads to holistic betterment in the ecosystem which is reflected in various facets of society. For this to happen, awareness is crucial among the citizens for responsibility to be adopted and action to be taken against the issues that plague us collectively. Members belonging to the Smart Village Revolution Program and the Centre for Extension Activities under the leadership of Director – SAC and Dean, Student Affairs took the initiative of organizing an Awareness Program on Organic Waste Management, Sewage Handling Practices, Use of Organic Fertilizers and Developing Sanitation. Spreading knowledge regarding such vital areas among the public is a necessary objective which was astutely taken up on the occasions of 19-23 of July 2022. A Thyroid Camp was also organized to recognize the importance of diagnosing and treating the related health problems, which was attended by many residents of the locality. The aforementioned activities served their purpose successfully as the intent of the programs reached a wide spectrum of attendees and educated many regarding the issues.

No. of Volunteers participated: 109
