Date: 08.07.2022

Venue: Pondugal, Porat Nagar, Ananthavaram Villages,

Interaction Session with Concerned Govt.

Departments, NGO's, etc and Collaborations
(Sanitation, Healthcare, Indoor Air Quality in
Household, Livestock Management, Preservation and
Maintenance of water bodies, Water Supply Network,
Storm water network, Waste water Treatment)

Interaction session with concerned Government Departments, NGO's etc and collaborations.

Sanitation:

We arranged a meeting with the vice president and concerned influencing villagers in the village regarding the poor sanitation in the locality as well as individual houses. Proper awareness initiatives have been made available to the public.

Healthcare:

The local RMP was contacted and interviewed regarding the availability of first aid and proper Medicare. There was an urgent need of having a bigger hospital other the primary health care which was small enough that could treat a handful of people at a time and for the former the president of the village was requested.

Dr. Achyut, from Poratnagar organised medical camp consisting general ECG, BP, and blood test.

Livestock management:

Animal husbandry is widely practice in most of the houses in almost all the villages. Although most of the cattle were licensed and vaccinated, some of the out skirts houses were abandoned and for that purpose the committee went to **sachivalayam** and inquired about it. A mobile vaccination van for animals was sent the very next day.

Water supply network:

Water monitoring systems like IOT based water plant were already constructed in those villages and the daily supply to individual houses was monitored. We asked for the data regarding the water supply timings, monthly supply graph and water analysis data from

president. In another village the MPTC was contacted regarding a water tank sanction. K.L. University sanctioned a water tank to be made for the same village.

In Ananthavaram the team interacted with the vice president and president regarding the water tank leakage and took the signatures for a water tank sanction.

Wastewater management:

Awareness is what was found to be among the villagers regarding waste water. Although due to improper drains/drainage system and heavy rains. Anganwadi were especially contacted for as the children's safety was of utmost importance during flu or viral diseases during rainy seasons. Low terrain houses were made to realize the importance of proper initiatives to take while throwing used water

Alcohol awareness and Risk Behaviour:

In Poratnagar, with the help of MPTC and AP police were approached for the increasing intake of alcohol. In Pondugala, a report was prepared about the use of illegal drugs among adults and even children and a meeting with the Commissioner and IAS.

Infrastructure:

For Poratnagar University agreed to do the fencing and clean the surrounding and remodel the gram panchayat and anganawadi office/centre.

No. of Volunteers Participated: 100
