Awareness Propgrammes & Rallies on Usage of Plastic

One of the most concerning human actions in the context of saving our environment is the excessive usage of plastic. This phenomenon occurs regularly in uncontrollable amounts, threatening nature to a great extent and jeopardizing our survival. Advocating for measures to regulate plastic usage is not the duty of only the environmentalists but that of every citizen for this choice impacts humanity on an unimaginable level with the difference made in one household multiplying the impact at a significant count which leads to a large part of mankind being influenced. This is the understanding that drove Director SAC, HoD Pharmacy and Women's Forum towards making a joint effort to organize Awareness Programs & Rallies on the Usage of Plastic throughout the 11th July 2022. A relentless campaign was launched against the unregulated usage of plastic materials which brought together a multitude of voices standing up against this environmental evil. With a widespread impact on the community and a lasting impression in the fight against plastic, this effort was highly successful and appreciated.

List of Volunteers participated: 102
